OBJECTIVE

Motivated Python Developer skilled in building responsive programs, reusable components, and clean, optimized code. Passionate about creating real-world applications using modern technologies. Eager to contribute to a dynamic engineering team and grow as a full-stack developer.

EDUCATION

Sambhram Institute of Technology, Bengaluru, Karnataka Bachelor's Degree In Electronics and Communication GPA-7 4 years	Year of Passing: 2025
BEST PU College, Karnataka Pre-University Course (PUC) 60% 2 years	Year of Passing: 2021
Government Boys High School,Chikkaballapura Karnataka High School (10 th) 62%	Year of Passing: 2019

SKILLS

Frontend: Html,Css,Web Development,Basic of Java script.
Backend: Python, Basic machine learning with python, OOPs ,Basic Linux
Database: SQL,MySQL
Libraries:NumPy,Pandas,Matplotlib,Seaborn
Tools:Vs code,Google colab

INTERNSHIPS | EXPERIENCE

Application Reliability Engineer – Niqo Robotics • Worked on data annotation and AI/robot understanding • Worked with Linux for technical and system-related tasks • Analyzed customer problems and provided effective solutions	Apr 2026 - Aug 2026
AI – Machine Learning Engineer Intern – Rooman Technologies Pvt. Ltd. • Completed 480 hours of certified AI/ML training under Electronics Sector Skills Council of India and National Council for Vocational Education and Training • Gained hands-on experience in AI/ML concepts, model building, and real-time applications • Achieved NSQF Level 5 certification with Grade A (16 credits)	Sep 2024 - Apr 2025
Machine Learning Intern – Intrainz Innovation Private Limited • Worked with machine learning algorithms such as regression,Clustering • Performed data preprocessing, including handling missing values and feature scaling • Built models to solve real-world prediction problems	Jan 2023 - Mar 2024

PROJECTS

Soldier Health and Position Tracking System Aug 2024 • Designed a system using GPS and health monitoring sensors (heart rate and body temperature) to track soldiers • Developed a system to monitor real-time location and vital health parameters • Implemented alerts for abnormal health conditions to enable quick response in emergencies • Gained hands-on experience integrating GPS modules and health sensors
Customer Journey Analysis using Clustering • Implemented clustering technique to analyze customer behavior • Used ML techniques to improve user experience and data insights • Worked on data analysis and pattern identification

CERTIFACTION

Python full stack development (pyspiders,Rajainagar)
Machine Learning(Intrainz Innovation Private Limited)
